In addition to selling your books assiduously online, there are several different methods that may allow you to promote more books.

One is to offer one thing away totally free with your e book, corresponding to a valuable bonus item. Or bundle a number of ebooks under one value, which lowers the price for every ebook if they had been bought separately.

An efficient approach for determining a price is to send out a survey to your present customers. If these customers have already bought an e-book from you, ask for their opinion when it comes to price. Do this by making a sales page for the new e book, but don't include a price on that page. Instead, add a variety of hyperlinks to survey questions that ask pointed questions to assist you in assigning a price to your ebook.

One other strategy is to check out costs by creating a variety of duplicate gross sales pages with completely different costs on each page. Be certain that your sales copy is exactly the identical on every page, and includes your promoting-deal with sentence. Then figure out for each web page the conversion ratio between visitors to your site and gross sales of your book. This will let you know what your optimum worth is.

In the end, should you've written a ebook that solves a problem or presents a brand new approach, your e-book will bring in both visitors and profits. So remember to write that promoting-deal with sentence that sums up what drawback your e book solves and what the benefits of your 1270 book shall be to the customers who buy it.
