One is to give one thing away totally free along with your e-book, similar to a useful bonus item. Or bundle several ebooks underneath one price, which lowers the value for each book if they had been offered separately.

An effective approach for determining a price is to ship out a survey to your current customers. If these customers have already bought a book from you, ask for his or her opinion in terms of price. Do this by making a gross sales page for the new book, but don't embrace a worth on that page. Instead, add quite a few links to survey questions that ask pointed questions to help you in assigning a value to your ebook.

Make sure that your sales copy is exactly the same on each web page, and contains your promoting-handle sentence. Then work out for each page the conversion ratio between visitors to your site and sales of your book. This will inform you what your optimum value is.
